CSCE 531 Spring 2008
Quiz 8
Assigned Friday, 08-04-18

1. Is the following scheme used for (a) iterative or (b) recursive interpretation? (Choose one.) **Answer:** (a): iterative

   ```
   Initialize
   do {
   fetch next instruction
   analyze instruction
   execute instruction
   } while (still running)
   ```

2. An *emulator* is an interpreter whose source language is a low-level (assembly or machine) language. True or false? **Answer:** true
