CSCE 330 Fall 2000

Quiz 30

Assigned Monday 00/11/27

The second test, which overall went well, showed that some of you still have problems with the difference between the list constructor (`::`) and the list concatenation operator `@` in ML. One of these is different from the others. Which one?

1. `[1] @ [2]`
2. `1 :: [2]`
3. `1 @ [2]`
4. `(1 :: []) @ (2 :: nil)`
5. `1 :: 2 :: []`
6. `1 :: 2 :: nil`

Answer: `1 @ [2]`
