CSCE 330 Spring 2006

Quiz 14

Assigned Tuesday, 06-03-14

Match the following two segments of Simplesem code to : (a) a subroutine call, (b) a return from a subroutine. (The numbers used are arbitrary.)

1.
```
set 10, 150
jump 100
```

2.
```
jump D[10]
```

Answer: The first segment descrives a subroutine call (in the C2 language).
