

## **CSCE 516: COMPUTER NETWORKS**

### **Catalog Description:**

**516—Computer Networks.** (3) (Prereq: STAT 509) Structure, design, and analysis of computer networks; ISO/OSI network architecture.

### **Prerequisite(s) By Topic:**

Probability

**Course Status:** We are revising this course syllabus as a result of the introduction of CSCE 416 to the curriculum. There is substantial overlap between the old CSCE 516 and the new CSCE 416. We are likely to emphasize modeling and performance of networks in the new syllabus. The options for revision are currently being examined and discussed.

**Course Coordinator:** John Bowles

### **Modification and Approval History:**

Initial description April 1999

Revised April 2001

Revised June 2005 by John Bowles and Caroline Eastman
