CSCE 330 Fall 2001

Program 1 (Amended)

Assigned Monday, 01/9/24. Due Monday, 01/10/1

1. Start the simplesem interpreter, following the instructions given at the web site for the course.
2. What does the program that comes with the interpreter do? Try it for various values of the parameter. **Answer:** Factorial.
3. The simplesem source is available locally at /usr/local/etc/csce330/.
4. ftp to cse.sc.edu and download the program mcd.sim from directory pub/valtorta/simplesem/PROGS. Load that program into the simplesem interpreter and run it. What does this program do? **Answer:** Greatest common divisor.
