Note Title

2013-08-27

HW 1. Do the exercise at the
end of Ch. 1 of [L].

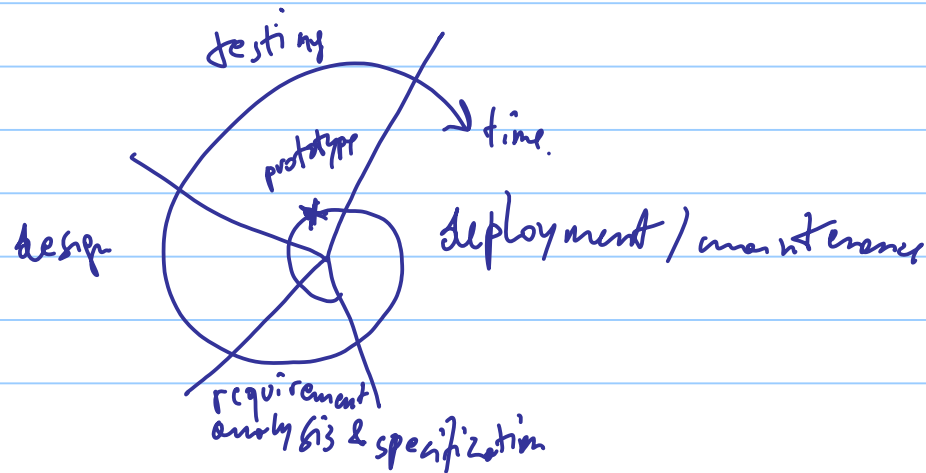

Turn in paper, handwritten or typed
Try to fit your work on a single page.

No proof needed.

Due on 2013-09-03 (Tuesday).

Spiral model of software development.

Key concepts are: iteration, prototype

The prototypes may be written in different programming languages!

E.g., start w/ Prolog, go to C++.

↳ w/ Lisp, go to C++.

RUDE Run - Understand - Debug - Edit
