CSCI 330 Spring 1999

QUIZ 2

Assigned Thursday 99/1/19

1. Give one example of the lack of orthogonality in C. **A:** Parameter modes and data types cannot be used orthogonally; for example, most datatypes can be passed by value, but arrays can only be passed by reference.

2. Fill in the correct word in place of *mystery* in the following sentence: The Ariane 5 launcher disaster occured because of an uncaught *mystery* during a type conversion. **A:** Exception.
